Training

Frontend Developer Career Path – Scrimba | AI Engineer Path – Scrimba | Apex Specialist Superbadge | Web Development Bootcamp – Udemy | Certified Information System Auditor Exam Prep – ISACA |

Projects

Portfolio Website – alimacapers.com

- Built a fully responsive personal portfolio website using HTML, CSS, and JavaScript, with advanced styling techniques in CSS Grid and Flexbox for a seamless layout across devices
- Integrated JavaScript for dynamic content loading and interactive elements, and optimized the website's performance and efficient use of media queries for enhanced user experience

Tonight's Pick – Movie Night Recommendation App

- Developed a movie recommendation app leveraging OpenAI for natural language processing and Supabase as the backend, utilizing a vector database to store and query movie embeddings for accurate and personalized recommendations

Alima Asks – Personal Assistance App

- Developed an AI-powered personal assistant app using JavaScript and LangChain, capable of handling tasks such as setting reminders, providing weather updates, and answering queries
- Integrated the app with a user-friendly interface built with React.js, enabling real-time interactions and enhancing user experience through voice and text commands.

Professional Experience

Lambda IT Consult – Remote

December 2021 - Present

SENIOR IT AUDITOR

- Conduct IT risk assessment; document related risks and note key control issues; develop appropriate audit programs to test the control risks identified and successively evaluate control designs, optimization and assurance over operational and compliance processes
- Implement audit of IT general and application controls, information security, systems development, change management, business continuity, disaster recovery and computer operations
- Oversee and mentor new and junior employees within the team and perform supervisory and peer reviews

Department of Justice – Washington, D.C.

June 2019 - December 2021

IT AUDITOR

- Maintained current and up-to-date knowledge regarding all changes to the security policy and how it impacts audit requirements
- Conducted audits of over 500 tribal law enforcement agencies and 95 federal law enforcement agencies for compliance with the FBI CJIS Security Policy
- Interviewed law enforcement and government officials at agencies with connectivity to tribal and federal repositories, and prepared audit findings regarding the efficiency, accuracy, and security to ensure consistency in safeguarding CJIS data across agencies

Education

Bachelor of Science – James Madison University (2018)
